

KORT – Ford Sustainability Report 2013

Sint-Agatha-Berchem, 19 juni 2013 – Tussen 2000 en 2012 verlaagde Ford zijn gemiddelde CO₂-uitstoot met 37% per voertuig. Tegen 2025 wil Ford de uitstoot met nog eens 30% verlagen door nieuwe producten en technologieën te introduceren en productieprocessen duurzamer te maken. Dat staat in het 14^e jaarlijkse duurzaamheidsrapport dat Ford pas publiceerde met daarin ook andere gegevens rond de initiatieven met betrekking tot sociale, economische en milieukwesties.

Het volledige rapport vindt u hier:

###

About Ford Motor Company

Ford Motor Company, a global automotive industry leader based in Dearborn, Mich., manufactures or distributes automobiles across six continents. With about 175,000 employees and 65 plants worldwide, the company's automotive brands include Ford and Lincoln. The company provides financial services through Ford Motor Credit Company. For more information regarding Ford and its products worldwide, please visit www.ford.com.

***Ford of Europe** is responsible for producing, selling and servicing Ford brand vehicles in 50 individual markets and employs approximately 47,000 employees at its wholly owned facilities and approximately 69,000 people when joint ventures and unconsolidated businesses are included. In addition to Ford Motor Credit Company, Ford of Europe operations include Ford Customer Service Division and 24 manufacturing facilities (15 wholly owned or consolidated joint venture facilities and nine unconsolidated joint venture facilities). The first Ford cars were shipped to Europe in 1903 – the same year Ford Motor Company was founded. European production started in 1911.*

Ford in Belgium & Luxemburg

Ford Belgium (Brussels) distributes Ford vehicles and Ford original parts in Belgium & Luxemburg, since 1922. Ford Genk produces all large cars (Mondeo, S-MAX, Galaxy) for Ford in Europe, with 4.300 employees. Ford Lommel Proving Ground is the lead test facility for validation of all Ford models in Europe, with 350 employees.
